[www.photoimages.com](http://www.photoimages.com)

Our web site can be fun. You may see friends, or the bride who referred you to us.

There are details about our services and many examples of Robert's outstanding photography.

There is a map to the studio, a message from the photographer, and even the weather forecast!

### **The Photographer**

Robert Falcione, a Boston, Massachusetts native, is the principal wedding and portrait photographer.

His experience and love of photography is evident on that special day, and in the treasures he produces that last for generations.

A visit to [www.photoimages.com](http://www.photoimages.com) offers insight into his point of view with columns he has written for local newspapers.

Mr Falcione photographs but one wedding a day and but a few select weddings a year.

## **The Custom System; easy as A...B...C... \$2700**

### **A. The Coverage**

- **16x20 of any wedding pose**
- **Engagement portrait sitting**
- **2 5x7 for newspaper announcement**
- **Photographer's experience, talent, and time**
- **Finished Preview Print\* of each pose\* • 20- 8x10**
- **Peace of mind**

Brides love the *Custom System*, because they get to choose each photograph, and even each matte design on every page.

Our *Custom* coverage begins at your home, ninety minutes before the ceremony, and at no extra charge. The clock does not begin to tick with full Custom Coverage until the start of the ceremony.

It is complete five hours later after we have captured all of the beauty and majesty of your special day.

One of each finished Preview Print\*, yours to keep, is included in a beautiful preview album. An Art Leather Aristohyde is included for the price stated above. Or choose a different bride's album to suit your unique tastes and budget.

### **B. The Album**

The **Leather Craftsmen** is a most exquisite, flush, genuine leather album. Add \$1,000 to upgrade to this album.

Our **Art Leather** Aristohyde or equivalent album is a system, which is compatible with all sizes up to 8x10 and is included in the Full Coverage Custom System at no extra charge. Choose 20 pages. Each page may consist of 1 8x10 or 2 5x7 or 4 4x5. And with a Preview Print of each pose included, your album already has a great start before you spend another penny. Our reprints and enlargements are competitively priced.

The **General Products** album is also an album system, which is expandable. Ask about built-in guest register. Deduct \$200 for this or equivalent.

### **C. The Photos**

The *Custom System* is what most brides love to choose, because they can feel comfortable knowing that they have decided which poses and enlargements go into the album, and exactly how large the album will be. A Preview Print of each pose is included.

\*Preview prints are cropped to the photographer's vision, whether in the camera or the digital darkroom later. Unlike many studios, because we capture digitally, we can have total control over the finished print, offering additional retouching and digital imaging.
