[www.photoimages.com](http://www.photoimages.com)

Our web site can be fun. You may see friends, or the bride who referred you to us. Besides illustrations and service descriptions, we offer lists of realtors, florists, and caterers.

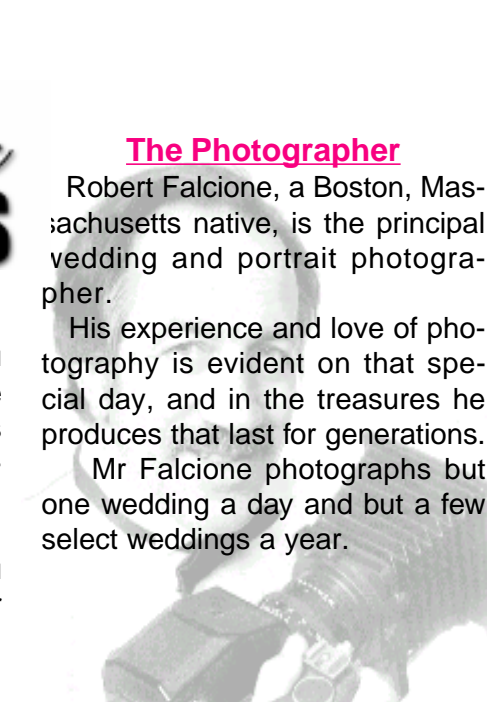

And if things work out, you may get to see some of your originals from your honeymoon suite.

### The Photographer

Robert Falcione, a Boston, Massachusetts native, is the principal wedding and portrait photographer.

His experience and love of photography is evident on that special day, and in the treasures he produces that last for generations.

Mr Falcione photographs but one wedding a day and but a few select weddings a year.

## The Custom System; easy as A...B...C... \$2300

### A. The Coverage

- 11x14 of any wedding pose
- Engagement portrait sitting
- 2 5x7 for newspaper announcement
- Photographer's experience, talent, and time
- Original\* of each pose. 20- 8x10\*
- Peace of mind

Brides love the *Custom System*, because they get to choose each photograph, and even each matte design on every page.

Our *Custom* coverage begins at your home, ninety minutes before the ceremony, and at no extra charge. The clock does not begin to tick with full Custom Coverage until the start of the ceremony.

It is complete five hours later after we have captured all of the beauty and majesty of your special day.

One of each original pose, yours to keep, is included in a beautiful preview album. Now choose a bride's album to suit your unique tastes and budget.

### B. The Album

We offer three beautiful albums for your review.

The *Leather Craftsmen* is a most exquisite, flush, genuine leather album.

Our *Art Leather* album is a system, which is compatible with all sizes up to 8x10.

The *General Products* album is also an album system, which is uniquely expandable. Can include a built-in guest register.

### C. The Photos

The *Custom System* is what most brides love to choose, because they can feel comfortable knowing that they have decided which poses and enlargements go into the album, and exactly how large the album will be.

\*Choose 20 pages. Each page may consist of 1 8x10 or 2 5x7 or 4 4x5.

And with an original of each pose included, your album already has a great start before you spend another penny.

Our reprints and enlargements are competitively priced.

\*Originals

We call the first printing of your wedding photographs originals, because we crop your photos in the camera on the day of your wedding. And unlike "proofs" we demand that ours meet a higher specification, with the proper color balance and density.
